

Radio Constructors Data Sheet Index 1968 / 69 (unless noted)

1	Reference Formulae
2	Decibel Table
3	Frequency / Wavelength Conversion Chart
4	International Morse Code
5	Capacitive Reactance – Audio Frequencies
6	Capacitive Reactance – Radio Frequencies
7	Inductive Reactance – Audio Frequencies
8	Inductive Reactance – Radio Frequencies
9	Eurika Resistance Wire
10	Single Layer Inductance Winding Data (1956)
11	Single Layer Inductance Winding Data 0.3uH to 60uH (1956)
11	Temperature Conversion Table
12	Metric Conversion Table
13	Parallel-R, Series-C Table
14	Multivibrator C-R Values
15	Winding Temperature Table
16	Binary - Decimal Conversion Tables
17	Speaker Transformer Ratio Table
18	Wire Resistance and Current Table
19	IR Dissipation currents below 50mA
20	IR Dissipation currents above 50mA
21	E.R. Dissipation Table (below 50V)
22	E.R. Dissipation Table (above 50V)
23	Sound Frequency – Wavelength Table
24	Amateur Q Code
25	Amateur Abbreviations
26	625 Line Colour and Monochrome Television
27	Inch / Millimetre Conversion Table
28	Round Figure Values for $2\pi f$
29	Squares of Numbers
30	Square Roots of Numbers
31	Cubes of Numbers
32	Cube Roots of Numbers
33	Missing
34	R.M.S., Peak and Average Values
35	Bias Resistor Voltages
36	Phase Shift Oscillator C-R Values
37	Missing
38	Abbreviations – A to L
39	Abbreviations – M to Z
40	The Hartley Oscillator
41	The Colpitts Oscillator
42	Further LC Oscillators
43	Two terminal .L.C Oscillators
44	Crystal Oscillators
45	RC Oscillators
	Construction of TV and VHF Tuned Circuits
	Capacitor Dropper Chart for Series Heater Chains
